

EO's that insects do NOT like:

Different insects are turned off by different oils. Here are some great ideas for an enjoyable outdoor experience.

Mosquitos do not like: Palo Santo, Lemon, Idaho Tansy, Citronella (everything but Lemon is included in the new KidScents Bite Buster blend - yay!)

Moths do not like: Patchouli, Palo Santo

Horse-flies do not like: Idaho Tansy, Citronella

Aphids do not like: Mix 10 drops Spearmint and 15 drops Orange EOs in 2 quarts salt water, shake well, and spray on plants

Cockroaches do not like: Mix 10 drops Peppermint and 5 drops Cypress in 1/2 cup salt water. Shake well and spray where roaches live

Silverfish do not like: Eucalyptus radiata, Thieves

EOs can be diffused or put on cotton balls or cedar chips (for use in closets or drawers).

Experiment with your own combos of the above oils and let me know how it works!
